VOICE / TONE

- Direct, confident, no-fluff. State the point first, then support it.
- Don't use: em dashes (use commas, periods, or hyphens instead), rule-of-three constructions, "not X but Y" phrasing, filler jargon (delve, moreover, furthermore, albeit, indeed), rhetorical questions followed by their own answer, "let's break it down" or "let's dive in" openers, forced or excessive metaphor.

ACCESSIBILITY

Background	Text color	Result

#1A1A1D (Primary)	White	Passes WCAG AA
#B5651D (Quaternary)	Dark ink (#1A1A1D), not white	White fails contrast, use dark text

DO'S AND DON'TS

Element	Do	Don't
Logo	Use "Gaurav M." in Poppins with full clear space around it	Stretch, rotate, or add a drop shadow to the wordmark
Color	Use Secondary (#4A0E0E) to anchor section backgrounds, reserve Primary (#1A1A1D) for wordmark/nav/footer, and use Quaternary (#B5651D) for interactive moments.	Use Secondary and Quaternary together at equal visual weight on one screen; they're both 35% colors, so pairing them without restraint creates competing focal points. Pick one dominant surface + one accent per screen.
Type	Pair Poppins headings with Montserrat subheads at the specified weights	Introduce a third typeface or mix random weights
